## Instructions 1/2

Play CCS Top Trumps in groups of 2-4 people.

1. Deal all the cards face down. Each player holds their cards so that they can see the top card only.
2. The player to the dealer's left starts by reading out a category and a value from the top card (e.g. Teamwork Factor, value 5). The other players then read out the same category from their cards. The one with the best or highest value wins. They collect all cards played and put them to the bottom of their pile. It is then their turn to choose a category from the next card.
3. If two or more cards share the top value then all the cards are placed in the middle and the same player chooses again from the next card. The winner of the hand takes the cards in the middle as well.
4. The person with all the cards at the end is the winner.
